# GlobalFoundries enterprise vision

GlobalFoundries enterprise vision revolves around creating a real-time enterprise built on common data model, global processes, and seamless data flow, enabling operational efficiency and scalability.

## The real-time enterprise

**Delivering the right information  
To the right people  
At the exact moment it is needed**

**Every “voice” can be clearly heard  
(Customer, employee, offering, FAB, etc.)**

This vision connects the Fab’s and the Enterprise so that it is integrated and automated

This vision allows GF to realize increasing operational efficiency and scale

## Key criteria for success

### **A common data model across GF**

Data must be a competitive advantage

### **A common view of GF global business and manufacturing processes**

Clear ownership of process, methods, tools and governance

# This vision enables our commercial and operational transformation

## Commercial excellence

Transform product management, sales, and support to **enhance customer experience**, drive product innovation and adoption, and improve our FCF / revenue by elevating

## Operational excellence

Transform supply chain, manufacturing, and quality to **achieve higher precision in our operations**, drive automation and standardization, and improve quality and efficiency by

## Foundational enablers

Provide underlying building blocks that are needed to **enable a compliant business and commercial and operational excellence**

# Considerations for Transformation

**Transformation starts at 50 percent and necessitates a top-down approach**

**Transformational change management:  
Unlearning to pave the way for relearning**

**Selecting the right team: It is not the Hero but the team that succeeds**

**Identifying the appropriate sponsor: influence is the key to success**
